H. Mobile Machinery (Tracked) that is to say motor vehicles so designed and constructed that the weight thereof is transmitted to the road surface either by means of continuous tracks or by a combination of wheels and continuous tracks in such circumstances that the weight transmitted to the road surface by the tracks is not less than half the weight of the vehicle and which is designed for use as a mobile crane, or for trench digging, excavation, shovelling, or work in connection with the making and repair of roads or work in connection with agriculture, planting, forestry, mining, levelling, draining or dredging or similar operations.

I. Mobile Machinery (Wheeled) that is to say motor vehicles the weight of which is transmitted to the road surface by means of wheels and which otherwise falls within the definition of "mobile machinery (tracked)".

J. Trolley vehicles, that is to say motor vehicles deriving power from overhead cables or rails and making connection with such source of power by means of a pulley or similar device.

K. Road Roller that is to say motor vehicles constructed for the purpose of pressing together materials used in the construction or repair of roads.

not be removed or defaced
